- How the PPSO at destination can process/close out an attempted pickup at origin in DPS:
 - Validate invoice and payment are approved by PPSO at Origin.
 - Utilize the “Shipment Primary Delivery Address” under street address type “Attempted Pickup”.
 - Add notes under “General Remarks” on action taken and justification for this update. Maintains an audit trail of events ,etc.
 - Change status from In-transit, Arrived to “Delivered Complete”.
- The other option is to suspense record for the invoice to be finalized and send a DPS Help Desk ticket to change status from In-transit to “Cancelled”.
- This recommendation can eliminate DPS Help Desk tickets for these type of actions.

SIT Expiration Management

- Sort all SIT nearing expirations by “SIT Days Remaining”
- List all shipments within 30 days of SIT expiration and all negative days
